Thompson

**Thompson
Construction
Group**

Thompson Construction Group delivers large-scale construction services to industrial clients in a way that moves their business forward.

Construction Services

Thompson combines proven building experience across many client sectors with expertise in a number of specialties that are critical to quality industrial construction. The result is a high level of competency in delivering construction solutions to clients that directly supports their business objectives.

Post-Construction Support

Thompson can provide cost-efficient support to our customers on an ongoing basis through facilities maintenance, production equipment maintenance, and production support personnel. This strategy allows our customers to focus on their core competencies while leaving maintenance issues to people who specialize in that function.

A Culture of Safety

Thompson puts safety at the forefront of all we do, regardless of project size or scope. Our principle of doing business extends from top management down to field operations. We worked deliberately to develop a culture where safety comes first, and we are fully committed to sustaining it. As a result, we have zero tolerance for practices that do not promote a safe workplace.

Thompson proudly serves customers in:

- Steel and Alloys
- Automotive
- Power/Utilities
- Tobacco
- Chemicals
- Food Processing
- Pulp/Paper
- Fibers
- Pharmaceutical
- Manufacturing

A Partner for the Future

Industrial innovation and efficiency is at the very center of progress. At Thompson, we help clients move their business forward by optimizing their facilities. We're known for our ability to concentrate on the details of the job at hand, while keeping an eye on how we can support the long-term goals of our customers.

It starts with listening to our customers, responding with solutions that are rooted in safety, value and dependability, and seeking ways to continually improve. It ends with a business relationship of trust, confidence and mutual respect.

*Business is all about momentum.
Let's move ahead together.*
